TELASOFT

Content Management Systeem

For Business Users

Text Editing

Word-like HTML Editor
• Edit text, format font color and size, set indentation and alignment
• Insert and manage links
• Inset and re-size images
• Insert documents
• Create tables and lists
• Manage Flash and Windows Media files
• Check the content for misspellings in more than 10 languages with the option to add more
• Right-to-left language support
• Import content directly from Microsoft® Word
• Use the multilevel undo/redo to revert to old versions of the content
